STATEMENT OF WORK: NOVEL INTELLIGENCE  
COLLECTION TECHNIQUES (PSYCHOENERGETICS-  
THREAT TO US AND POTENTIAL APPLICATIONS)

1. General

The objective of this effort is to investigate in detail certain psychoenergetic phenomena that have potential military applications. Emphasis will be on evaluating application potential and limitations of such phenomena, and to provide such knowledge as gained under this contract to appropriate DoD agencies who will evaluate the significance of foreign work, particularly as it may pose a threat to the US.

Major emphasis will be on evaluating remote viewing phenomena and in particular, targeting aspects, via coordinate or other methods. Related to this are training methods, methods of enhancing reliability and repeatability of the phenomena.

2.0 Specific Tasks (FY 81)

2.1 Develop audio/semantic analysis techniques to separate correct from incorrect data available from taped viewer descriptions of remote viewing sites and to provide selective editing under operational conditions.

2.2 Determine what is required for target acquisition (names, maps, coordinates, pictures, arbitrary labelings, simply the word "target", etc.)

2.3 Evaluate threat potential of foreign remote viewing - type investigations:

2.3.1 Simulate experimental results for which there is data to assess validity of the foreign research.

2.3.2 Assess military applications potential of the foreign research (or claims), particularly where a threat to US security is possible.

2.3.3 Assess feasibility of the most significant applications and evaluate limitations.

SECRET

SECRET

2.4 The following task will be undertaken to explore the applications potential of remote viewing. It will specifically undertake the task of developing and evaluating a training program designed to increase the reliability of remote viewing and seek to gain better data on operational targets.

2.4.1 Evaluate the use of remote viewing to locate target objects or people.

2.4.2 Evaluate the use of remote viewing for event detection and to locate events.

2.4.3 Evaluate the use of remote viewing to detect the presence or absence of targets.

2.4.4 Evaluate the potential of various camouflage, concealment and deception as countermeasures to remote viewing.

2.4.5 Investigate the effects of the following variables on the remote viewing phenomena, (a) accuracy, (b) degree of resolution, (c) affect on the sensory inputs (feel, smell, touch, etc).

2.4.6 Determine potential of remote viewing to assess other types of information, such as specific S&T data, or function/purpose of facilities or activities.

2.5 It is anticipated that during the contract period there will be quick reaction tasks approved by the Grill Flame Committee, passed through the COTR and levied on the contractor. These will be of high priority and will require prompt attention.

SECRET

3. Security Requirements: It is expected that a maximum of six SI/SAO billets will be required to properly support the program. If and when SRI International commences work on operational situations, it is required that all personnel connected with operational matters possess the necessary clearances.

4. Deliverables: The contractor shall provide the following:

4.1 Quarterly Reports to highlight accomplishments and resource expenditures (by specific tasks the amount of funding, equipment used, Professional/Support man hours). Detailed progress on each subtask designated for examination during the quarter will be completed by the contractor.

4.2 Draft Final Report using the same format as the Quarterly Reports but covering the entire contract period.

4.3 A Final Report based on the Draft Final Report and the comments made by the COTR.

4.4 Program progress briefing shall be of an informal nature and shall be held at the end of each quarter. The contractor shall furnish copies of informal charts, viewgraphs and other aids as may be needed. The informal briefings shall consist of a contractor presentation and informal discussion among contractor, funding agencies and other government personnel as appropriate.

4.5 Quick reaction reports as required by the COTR. They will be of limited scope and deal with subjects of especially high interest and/or critical timeliness.

SECRET

4.6 All supporting material, i.e. notes, maps, tapes for this contract will be made available by the contractor to the COTR and no such material will be destroyed without written permission.

5. Delivery Schedule: The COTR will insure members of the Grill Flame Committee receive copies of all deliverables.

5.1 Quarterly Reports: Five copies to the COTR. The first report is due 100 days after the contract award date and will cover the first 90 days of the contract. Subsequent reports will be due each 90 days thereafter, i.e., 190 days after contract award, 280 days, 370 days, etc.

5.2 Draft Final Report: Five copies to the COTR within 30 days of completion of the contract. Comments will be returned to the contractor within 45 days of receipt of the draft.

5.3 Final Report: Ten copies and a camera ready master to the COTR within 45 days of receipt of the comments made on the Draft Final Report.

5.4 Program Progress Briefings: Approximately 4 per year are anticipated. Specific times and places will be established by the COTR. Some briefings will occur in the Washington, DC area and may involve more than one presentation by the contractors.

5.5 Quick Reaction Reports: Number of copies, place and time of delivery to be determined by the COTR.

5.6 Supporting Materials: Provided to the COTR when requested during the period of contract performance. All such material will be finally delivered to the COTR at the same time as Final Report. (5.3 above).

### GOVERNMENT FURNISHED PROPERTY/EQUIPMENT

Government furnished property or equipment to be provided to the contractor will primarily consist of reports, data, and documents which will be provided on a loan basis. Contractor access to other DIA facilities as may be necessary will be arranged by the DIA contract monitor.

### INSPECTION AND ACCEPTANCE

Inspection, acceptance, and delivery of reports, will be at the Defense Intelligence Agency, ATTN: DT-1A, Washington, D.C., 20301. Acceptance will be based on a determination by the COTR with the approval of the Grill Flame Committee that the contractor is performing in accordance with the tasks specified in the Statement of Work.

### TECHNICAL PROPOSALS

Requires the contractor to provide information which details his methodology, schedule, and manpower loading in meeting the contractual requirements. Such information should be submitted to DIA/DT-1A for evaluation by the Grill Flame Committee prior to negotiations.

### OTHER

The classification of the contract is SI/SAO. Reports issued under this contract shall contain the following acknowledgements:

This study was supported and monitored  
by the Defense Intelligence Agency of  
the Department of Defense under Contract No.  
\_\_\_\_\_.

SECRET

GOVERNMENT FURNISHED DATA

Data required by the contractor will be requested in writing from the COTR. The COTR will maintain a record of all government documents transferred to the contractor and will ensure their return when the contract terminates.

SG1J

CONTRACTING OFFICER'S TECHNICAL REPRESENTATIVE (COTR)

SECRET

## REPORTS

1. These reports will present a concise and factual discussion of findings and accomplishments during the period and must include appropriate references.

2. Each report will include a report summary. This summary, prominently identified, should normally not exceed a few pages. The purpose of the projects must be specified, together with a description of important equipment purchased or developed, if any, and the conclusions reached by the contractor. The most important single feature of this summary is that it must be meaningful to readers who are not specialists in the subject matter of the contract.

3. The requirement for careful preparation cannot be overemphasized as this summary will often provide the basis for decision on the continuity of the project. The contractor must recognize that his achievements are quite often surveyed by Department of Defense staff who function at a level that precludes a thorough review of detailed reports.

4. When appropriate, references should be made to more detailed sections of the report in order to guide those who may be prepared to spend the additional time required to develop a more complete and professional understanding of the accomplishments.

5. The report summary should include the following information for each major portion of the work.

- a. Problems.
- b. General methodology (e.g., literature view, laboratory experiment, survey, field study, etc.).
- c. Results
- d. Implications for further research (if any).
- e. Special comments (if any).

MIPR CONTROL PROVISIONS AND GUIDANCE

1. Funding cited may be used only for the project delineated in the attached Statement of Work.
2. The total MIPR estimate shall not be exceeded by the purchasing office.
3. Changes in purpose, scope or desired results from those delineated in the attached Statement of Work must be approved by the COTR with the approval of the Grill Flame Committee.

NOVEL INTELLIGENCE COLLECTION TECHNIQUE (U)  
JUSTIFICATION FOR SOLE SOURCE PROCUREMENT WITH  
SRI INTERNATIONAL

1. (C) Sole source procurement must be initiated for the award of the contract to SRI International of Menlo Park, CA, for FY 1981.
2. (S) In order to fulfill the objective of this Statement of Work, the contractor is required to have a high degree of technical competence in the analysis and evaluation of advanced threat techniques. There is no doubt that SRI has the background and expertise desired for the specific advanced threat of interest. SRI is a recognized leader in this particular field of analysis and evaluation, and has performed similar work for other US Government agencies over the past few years. Their previous work, under Contract DNA 001-78-C-0274, will form a highly meaningful data base which will greatly enhance the value and effectiveness of this contractual effort.
3. (C) The effort involved for a new contractor to research the same level of capability and expertise that SRI currently possesses for this area of analysis and evaluation would be too time consuming and uneconomical to acquire and develop. To acquaint a new contractor in this area of expertise would require several years simply to achieve the present level of expertise and competence possessed by SRI.
4. (C) The performance of SRI on similar government contracts since 1974 is judged as satisfactory, justifying them as a sole source. The SRI researchers implemented numerous innovations to maximize output of these prior year contracts, and were able to utilize additional resources at SRI without added cost to the government.
5. (C) The capabilities and characteristics delineated above, especially the SRI-funded development of sources and data base, ensure that SRI International alone has the qualifications to satisfy the requirements set forth in the Statement of Work, especially within the compelling time frame of this contract.

a. The classification guidance contained in this specification and attachments referenced herein is complete and adequate.							
b. Typed name, title and signature of program/project manager or other  Deputy Directorate for Scientific and Technical Intelligence Defense Intelligence Agency				c. Activity name, address, Zip Code, telephone number and office symbol Defense Intelligence Agency ATTN: DT-1A Washington, D.C. 20301 SG1			
NOTE: Original Specification (Item 5a) is authority for contractors to mark classified information. Revised and final specifications (Items 5b and c) are authority for contractors to remark the regraded classified information. Such actions by contractors shall be taken in accordance with the provisions of the Industrial Security Manual.							

13a. Information pertaining to classified contracts or projects, even though such information is considered unclassified, shall not be released for public dissemination except as provided by the Industrial Security Manual (paragraph 5a and Appendix IX).

b. Proposed public releases shall be submitted for approval prior to release ☐ Direct ☐ Through (Specify):

### Public Release of SCI is not Authorized.

to the Directorate For Freedom of Information and Security Review, Office of the Assistant Secretary of Defense (Public Affairs) \* for review in accordance with paragraph 5a of the Industrial Security Manual.

\* In the case of non-DoD User Agencies, see footnote, paragraph 5a, Industrial Security Manual.

14. Security Classification Specifications for this solicitation/contract are identified below ("X" applicable box(es) and supply attachments as required). Any narrative or classification guide(s) furnished shall be annotated or have information appended to clearly and precisely identify each element of information which requires a classification. When a classification guide is utilized, that portion of the guide(s) pertaining to the specific contractual effort may be extracted and furnished the contractor. When a total guide(s) is utilized, each individual portion of the guide(s) which pertains to the contractual effort shall be clearly identified in Item 14b. The following information must be provided for each item of classified information identified in an extract or guide:

(I) Category of classification. (II) Date or event for declassification or review for declassification, and (III) The date or event for downgrading (if applicable).

The official named in Item 12b, is responsible for furnishing the contractor copies of all guides and changes thereto that are made a part of this specification. Classified information may be attached or furnished under separate cover.

☐ a. A completed narrative is (1) ☐ attached, or (2) ☒ transmitted under separate cover and made a part of this specification.

☐ b. The following classification guide(s) is made a part of this specification and is (1) ☐ attached, or (2) ☐ transmitted under separate cover. (List guides under Item 15 or in an attachment by title, reference number and date).

☐ c. Service-type contract/subcontract. (Specify instructions in accordance with ISR/ISM, as appropriate.).

☐ d. "X" only if this is a final specification and Item 6 is a "NO" answer. In response to the contractor's request dated \_\_\_\_\_ retention of the identified classified material is authorized for a period of \_\_\_\_\_.

☐ e. Annual review of this DD Form 254 is required. If "X'd", provide date such review is due: \_\_\_\_\_.

15. Remarks (Whenever possible, illustrate proper classification, declassification, and if applicable, downgrading instructions).

a. This contract requires access to SCI. The Defense Intelligence Agency has exclusive security responsibility for such information released to the contractor or developed under this contract. DIAM 50-5 provides the necessary guidance for physical, personnel and information security measures and is a part of the security specifications for this contract. DCASR is relieved of responsibility for all SCI material or information released to the contractor under this contract.

b. Foreign national employees of the contractor or subcontractor(s) are not authorized access to classified information resulting from or use in the performance of this Contract.

c. The Contractor shall notify the COTR in writing no later than five (5) days after receipt of the contract of the following information regarding the individuals assigned to work on this contract.

- (1) Name
- (2) Date and Place of Birth
- (3) Social Security Number

(SEE CONTINUATION SHEET)

16a. Contract Security Classification Specifications for Subcontracts issuing from this contract will be approved by the Office named in Item 16e below, or by the prime contractor, as authorized. This Contract Security Classification Specification and attachments referenced herein are approved by the User Agency Contracting Officer or his Representative named in Item 16b below.

#### REQUIRED DISTRIBUTION:

- ☐
- ☐

b. Typed name and title of approving official

c. Signature

d. Approving official's activity address and Zip Code

e. Name, address and Zip Code of Administrative Contracting Office

DD Form 254 (Continued)

(4) Certification of clearance investigation and clearance, date clearance granted, and name of agency granting clearance.

c. Final classification of the information generated under this Contract is the responsibility of DIA (DT-1A). Information generated under this Contract is subject to the guidelines contained in DoD Regulation 5200.1R, dated 2 November 1978, which implements EO 12065 which became effective 1 December 1978. Technical reports classified as high as TOP SECRET SI/SAO will be provided the Contractor by DIA and other DoD activities, and other DoD contractors for use in connection with this Contract. These reports may be retained for the duration of this Contract unless no longer needed. Upon termination of this Contract, the reports shall be returned to the sender (if required) or destroyed in accordance with current security regulations. If these documents are to be retained beyond the ending date of this Contract, written justification must be forwarded to and authorization given by the Contracting Officer.

e. All copies of final documents generated by the Contractor under this Contract will be transmitted to DIA (DT-1A) for dissemination to the Grill Flame Committee. No other distribution is authorized.

f. Use of the ARFCOS system is required.
